Turnover

Blue Solutions' consolidated fourth quarter 2015 turnover totaled €31.9 million, compared with €28.9 million for the same period in 2014, an increase of 10%.

Over the whole of 2015, it was €121.9 million, compared with €97.1 million in 2014, an increase of 26%. The increase was chiefly attributable to strong growth in the Bluecar activity (2,220 batteries delivered, up from 2,004 in 2014), driven by the development of car-sharing and growth in stationary solutions with Bluestorage (508 batteries delivered, up from 280 in 2014) attributable to the construction of shelters, notably intended to equip Blue Zones in Africa.

Overall, taking into account the other applications, and notably batteries for Bluebus, Blue Solutions delivered 2,930 batteries during the course of 2015, up from 2,396 in 2014.
